

## **BEFORE YOUR LASER SURGERY**

You are scheduled to have excimer laser eye surgery. In preparation for this, you need to do a few things.

- 1) Discontinue wearing your contact lens as instructed by your doctor prior to surgery.
- 2) Carefully remove all makeup the night before surgery.
- 3) Do not wear colognes or perfumes the day of surgery.
- 4) If you have a cold, fever or eye irritation, please call us.
- 5) Someone must drive you home from the laser center.

If you have any questions about your excimer laser eye surgery, please call the office.
